Pricing, Services, & Assumptions

7/17/2019

Version 1.0

RAPID TALENT FOR LEAVE MANAGEMENT ADVANCED - SERVICES

This package is designed for quick deployment of Dynamics 365 Talent. The price will include all consulting services, project management and assistance with setup and configuration of the program. This package includes all items in the Basic package, however, will include Employee Review and Learning.

We will provide the following services in the deployment of the system as listed below:

- Deploy the Dynamics 365 Talent environment and necessary connections with Outlook and email
- Provide a 1 day business review with HR staff on Leave Management and other desired object requirements. Recommendations for process changes will be delivered
- Create 1 Production company and 1 test entity based on configuration identified from the business review process. 200 employees or less
- Two levels of approval workflow plus an auto-approval workflow
- Import all users to access the Talent system and assign out of the box security roles
- Configure the Departments and Jobs
- Leave plans to be set up will include one vacation plan, one certified, one uncertified sick plan, and one additional plan
- Provide Master data templates for Employees, Positions and Leave Balances
- Import the Master files and balance data to the production
- Train staff (1 day session) on System, Personnel, Leave Management, Employee Reviews and Training processes
- Assist for 1 day with User Acceptance Testing questions
- Provide Power BI reports for Requested and Approved time within a date range for a selected plan. Out of the Box analytics report will provide Leave Balances
- Assist for 1 day with Go Live
